In reference to your request for a "Material Safety Data Sheet" on our product, Gatorade, the following statement will satisfy your requirements:

"Gatorade is a formulated food beverage containing ingredients which are all FDA approved for use in foods. The product is safe for use as a beverage when prepared as directed. Gatorade contains approximately 0.1% salt. Those who are hypertensive may wish to consult their physician before consuming foods or beverages."

If you need further information, please feel free to contact us again.

Thank you for your interest in our product, Gatorade.

Sincerely,

George A. Halaby, Ph.D., FACSM
Director - R & D
Grocery Specialties Division
